

## Matthias Girod

Matthias Girod joined EuroScience as Secretary-General in 2019. Prior to that Mr. Girod worked as a Policy Officer and Project Manager for the Central European Research Infrastructure Consortium ERIC (CERIC) in Trieste/Italy where he was in charge of international and EU relations as well as EU funded projects.

Mr. Girod holds a degree in Chemistry from the Philipps-University of Marburg and the University of Wales in Bangor/UK. Before he entered the science-policy-society interface, Mr. Girod worked as a researcher in the area of nanotechnology at the Federal Institute for Material Research and Testing in Berlin/Germany, and at the Elettra Sincrotrone in Trieste/Italy
